**Cats at breed name recognition stage: Can be shown on Exhibition Only:**

<b>LYKOI</b>	
LYS	Lykoi (Shorthair) All colours
LYL	Lykoi (Longhair) All Colours

**Please note** it has been agreed by Council (October 2017) that male Torties could be shown in existing tortie classes of any breed in either Adult or Neuter classes as appropriate. It was however noted that, due to the small number of such cats, the schedule need not include male tortie classes, simply that the show shall allow for them if entered, splitting the class as appropriate.

Key to GEMS codes:

Note: GEMS (GCCF EMS) code combinations below are for purposes of assigning a cat to its correct class.

Lists: Where several options are possible individual values are comma separated and ranges of values are indicated by a start and end value joined by a dash. E.g. "a-h,j,n" means *the range of values "acdefghjn"*.

[ ] Square Brackets indicate a mandatory element; *please select one from the options listed inside the brackets.*

{ } Curly brackets (braces) indicate an optional value; *please select one or omit entirely (i.e. can be left blank).*

\* An asterisk ( \* ) indicates any valid GEMS code combination permitted within the breed. E.g. "EXO \* 33" indicates *all Exotic Colourpointeds* and SIB \* means *all Siberians*.

Anything else is mandatory and as displayed.

So PER [f,h] 03 {61,63} means that the EMS codes that match are: PER f 03, PER f 03 61, PER f 03 63, PER h 03, PER h 03 61 and PER h 03 63.
