

## MIDLAND CAT CLUB OF IRELAND/GCCFI JOINT SHOWS

Judge Mrs V Brooks

### GCCFI SHOW

#### **BRITISH & MANX CHAMPION (GRAND CHAMPION)**

GR CH GROVES-GEARY'S CH INDIANA MAGIC GARDEN \*PL (BSH a) M 28.2.16

Very shy blue boy so a bit difficult to assess. Heavy mature head with neat rounded ears set into the line of the head. Full chubby cheeks and a short deep muzzle. Broad straight nose, firm chin and level bite; round eyes of deep gold colour. Thick neck leading to chunky body of weight and substance; deep chest, broad straight back, strong low legs with round fat paws, a short blunt tail. Short dense padded coat, beautifully prepared.

#### **BRITISH BLUE ADULT**

BOB GROVES-GEARY'S CH INDIANA MAGIC GARDEN \*PL (BSH a) M 28.2.16

See previous class

#### **BRITISH RED ADULT**

1 CC BOB HILL'S CRYSTAL FLAME'S T-REX (BSH d) M 28.2.16

It is so rare to see a red with a coat as clear as this. Very striking male with a strong well boned head, well set rounded ears with good width between; plenty of width across the cheeks, strong muzzle line with short broad nose, good depth to the muzzle with a firm chin and level bite. Weighty mature male in excellent condition with depth to the chest, a strong back, well developed flanks thick mature legs and round heavy feet. Short thick tail. Super coat short and dense with good crisp texture, beautiful rich red, the clearest I've seen for many a year, my BOV choice. Very impressive, he should go far

#### **BRITISH BLACK KITTEN**

1 BOB DUFFY'S ASTRALCHARM BLACK PANTHER (BSH n) M 20.5.17

Rather shy young man but settle after a bit of petting! Large mature boy for his age, head developing well with plenty of fullness to the cheeks, still wearing his slightly large kitten ears but as his head matures I'm sure he will grow into them. Broad deep muzzle, straight broad nose, correct chin and bite. Expressive deep gold eyes well set. Stocky weighty body with deep chest and straight back, thick strong limbs and round fat feet. Short blunt tail. Coat still a bit long but sound black to the roots.

#### **BRITISH BLUE KITTEN**

2 (1 & BOB W/H) HEALY'S IREJULBR GLORIOUS GREY GUY (BSH a) M 25.6.17

Sweet young man a bit small for his age at the moment. Rather large ears but as he develops this should improve. Cheeks filling out nicely, good depth to the muzzle with a broad nose level chin and correct bite. Large well set eyes but unfortunately a definite green ring to the centre of the eyes, my reason for with-holding. I know allowance can be made for developing colour in kittens but I really don't think this is going to go. So sorry to withhold but for me this is a major fault. I am sorry if I seem a bit harsh but this is 'my' breed and I feel very strongly about eye colour. That apart he is a solid strong boy of good weight and substance, depth and breadth to the body with well boned legs and a short thick tail. still got his slightly soft long kitten coat on but sound colour to the roots.

#### **BRITISH CHOCOLATE KITTEN**

1 BOB KISIELIENE'S GARFIELD OF GERULIS\*LT (BSH b) M 25.5.17

Very handsome chocolate very mature for his age. Round heavy well developed head with tiny ears set into the line of the head; lovely full broad cheeks; short deep muzzle with a very short broad nose firm strong chin and level bite. Large bold eyes of striking

copper colour; big weighty square body of depth and breadth, excellent weight and size. Heavy low legs, round solid feet and a short thick tail. Slightly long coat but lovely rich sound chocolate

### **BRITISH LILAC TORTIE KITTEN**

1 BOB HILL'S ASTRALCHARM DIAMOND IN THE SKY (BSH j) F 16.9.17

Bright alert lilac tortie miss with round head, medium ears she is still growing into. Cheeks developing well, round expressive deep gold eyes, well set. Good muzzle line with straight nose and firm chin; teething so bite still sorting itself out. Thick neck leading to body of substance good size and weight for her age, with well boned legs and strong feet; thick short tail. Coat a bit long and soft but dense, a delicate lilac with cream coming through.

### **CHARTREUX KITTEN**

MERIT BOB MARCISAUSKAS' BELKA SOFT SILENCE (CHA) F 9.7.17

Sweet kitten still has plenty of developing to do. Head needs more width to the muzzle which is looking a bit pointed at the moment; whisker pads still filling out so hasn't quite got the expression at the moment. Cheeks quite full, broad based, rounded ears set high, with flat top of head between. Large expressive eyes set on a slight slant, colour still developing. Cobby body with deep chest and broad shoulders, muscular legs and oval paws; slightly tapered tail of good length. Short coat and dense with undercoat still developing, sound blue grey in colour

### **BRITISH BLACK SILVER TABBY NEUTER**

1 PC BOB WREN'S CH HOONIKATZ RUBY'S PRINCE (BSH ns 22) MN 10.6.16

Handsome weighty boy but a bit upset today. Heavy well boned head, tiny rounded ears with good width between. Lovely head with width across the cheeks, a short broad muzzle firm chin and level bite. Large expressive hazel eyes well set. Stocky strong body of depth with broad back strong flanks, thick legs and heavy feet. Thick blunt tail of good length. Short dense crisp coat with beautiful classic markings, good depth of colour to the pattern with a bright silver ground colour.

### **BRITISH BLACK SILVER SPOTTED NEUTER**

1 PC BOB SLATER & WREN'S HOONIKATZ SILVER BELLE (BSH ns 24) FN 1.7.12

A lady of more mature years. Round head with full chubby cheeks, strong broad muzzle with short straight nose firm chin and level bite. Large round well opened hazel eyes; thick neck leading to weighty mature body, showing a bit of middle aged spread now but who isn't! Thick well boned legs and round heavy feet, short thick tail. Coat short dense and crisp with clear spotting on a pewter ground colour.

### **BURMESE CHAMPION (GRAND CHAMPION)**

GR CH O'SULLIVAN'S CH ALBA REGIA POLOSKA (BUR n) M 19.6.16

Handsome brown boy in excellent condition. Nicely balanced head with slightly domed top of head, medium rounded ears set into the line of the wedge. Plenty of width across the hinge, broad blunt muzzle; in profile shows a well defined nose break and level chin. Typical burmese eyes for shape and set, being straight across the top and rounded below giving that typical burmese 'frown'. Very strong eye colour, almost brown, rather than the chartreuse/yellow/gold colour specified in the SOP Strictly speaking the SOP says copper eye colour is a with holding fault but his type is so strong I've let it go

### **BROWN BURMESE ADULT**

GR CH O'SULLIVAN'S CH ALBA REGIA POLOSKA (BUR n) M 19.6.16

See previous class

**BURMESE PREMIER (GRAND PREMIER)**

GR PR TAYLOR'S PR BACKCHAT SWANKYPANTS (BUR a) MN 4.7.15

Solid mature blue boy with slightly domed the top of head, medium rounded ears set with good width between, short wide wedge with broad cheeks and a short blunt muzzle. In profile shows definite break and level chin. Well set eyes of good shape; firm solid body of good weight and substance with elegant legs and neat oval feet, good tail for shape and length. Short close fine coat of soft dove grey colour with nice silky texture

**BLUE BURMESE NEUTER**

TAYLOR'S PR BACKCHAT SWANKYPANTS (BUR a) MN 4.7.15

See previous class

**CREAM BURMESE NEUTER**

1 PC BOB TAYLOR'S BACKCHAT THE MINSTRAL (BUR e) MN 21.4.16

Son of the previous lad, can see the family resemblance. Short broad wedge with good top of head, well set ears into the line of the wedge; good width across the hinge, short blunt muzzle, excellent shape an set to the eyes. In profile shows good nose break and correct chin. Firm elegant body of weight and substance with slender limbs and neat spoon shaped feet; tapered tail of correct length.

**MISC CLASSES****AV SENIOR NEUTER**

1 TAYLOR'S PR BACKCHAT SWANKYPANTS (BUR a) MN 4.7.15

**AV CHARITY CLASS**

1 DOVAINIENE'S CERBIS JUTERA SFINKO EN GIZO (SPH e 09) M 1.4.16
