AOC NON-SELF EXOTIC PRE-CHAMPION

CC & 1st WITHHELD KERNAGHAN'S KERNAKITZ MISSATOMICBOMB, EXO f 21 33 23.7.16.

Pretty Tortie Tabby Colourpointed girl at her first Adult show. She has a round feminine head with smooth top, neat well placed ears, large round pale blue eyes, nose is short, cheeks quite full for age, firm chin with bite level. Feminine body supported on medium length thick legs & round paws, tail length balancing very well with body. Good preparation to coat although shedding well, however still retains a slight plush feel, also colours diffused somewhat due to moult. A lovely young female that I was dismayed to find possible signs of Nystagmus which I requested that someone else confirm, I did speak with her owner suggesting she get her checked at the earliest opportunity. I do hope everything turns out well & she goes on to better things as she is a super young female.
