

Thank you to Carmel and all the show team for inviting me to judge at the show. The show was great, I had a lovely day and a lot of fantastic cats to judge, nice to see a different array of furry faces. Thanks also for your wonderful hospitality, I think we all had a great time. Many thanks also to my fellow judges for your entertaining company. A final and heartfelt thanks to Annette Howard for her stewarding skills, thorough documentation and also great company. I sincerely hope we meet up again sometime soon.

## **Open Classes**

### **Class M190 Section 3 Hibernian Grand Champion**

**1<sup>st</sup> HiGrCh** - Kisieliene's GrCh Garfield of Gerulis\*LT (BSH b) M 25/05/2017

Head type is good. Rounded contours to the head, with good width across the top between medium sized well-set ears. Well-shaped and set round eyes, which could be a tad bigger for perfection, of a mid-gold colour. Chin firm and bite level. Profile short and balanced. He has good breadth to the chest and rump, cobby and weighty in the body, and a good size overall. A nice mature boy in his prime with good body type and weight. Reasonably good boning to the legs ending in firm round paws. Tail thick at the base and rounded at the tip, of a good balancing length to the body. The coat is fairly short and dense, with some feel of resilience in places, but overall a little soft. The coat colour is a darker shade of chocolate, with some warmth to it, which is reasonably sound, some minor paling at the roots. Coat preparation could have been slightly better on the day, but overall a nice big mature lad, with good head and body type and size and a nice temperament, he handled well. Happy to give him his Hibernian GrCh award today.

### **Class M191 Section 3A Champion**

**1<sup>st</sup> GrCh** - Kisieliene's Ch Just Enjoy Navahoo (BSH a) M 26/11/2020

Nice, rounded contours to this boy's head, with reasonably good width across the top. Small, neat well-set ears. This boy has also well-shaped and set round eyes, of a pleasing dark-gold colour. Chin firm and bite level. Nice open expression. Overall head type is good, although he still looks like he has some maturing to do in the head. Reasonably good breadth to chest and rump, and cobbiness in the body, he lacks a little heft at this present time. Standing low on fairly well boned legs with nice firm paws. Tail thick at the base and rounded at the tip, of a good length to balance the body. The coat is reasonably short, dense and crisp. The coat colour is a mid-shade of blue, which pales a little at the roots and is quite silvered. Lovely temperament. Overall, a good-sized boy for his age and stage of development, with a little more maturing still to do, but worthy of his award today.

### **Class M194 British Black Adult**

**1<sup>st</sup> Ch** - Hill's Pawsome Black Steel (BSH n) M 20/05/2019

Good overall head type on this boy; rounded contours, with very good width across the top, strength behind the muzzle line and well-developed cheeks. Medium sized, well-set ears. Fairly round well-set eyes, bit of a flat top-line, but of a good mid-gold colour. Chin firm and bite level. He is a little heavy-browed, however overall his expression is good. Very good breadth to chest and rump, cobbiness and strength in the body. He is a very good size and weight. Standing low on very well-boned legs ending in strong round paws. Tail thick at the base and rounded at the tip, of a good length. The coat is very short of a good density and crispness. The coat colour is an inky black, which is sound to the roots. Very nice temperament. Overall, a very mature, solid lad, with good type and a really good coat. Well presented and in very good condition. I liked him a lot and was pleased to see he was awarded best BSH adult and best overall BSH. My pick of the day!

**2<sup>nd</sup>** Kimaja's Furryblisslove Panther Alfie (BSH n) M 19/05/2022

Reasonably good, rounded contours to the head, with good width across the top between the ears. Medium sized, well-set ears. The eye shape is fairly good, and they are well set, however the eye colour is incorrect being mid-to light gold in colour around the periphery, but with a strong green rim around the iris. Chin is firm and the bite level and his profile and expression are good. Reasonably good breadth to chest and rump and cobiness in the body, but he is a little on the small side. Legs are reasonably well boned and end in firm round paws. Tail thick at the base, but tapers a bit, of a good length. The coat is reasonably short and dense, but a little soft in texture. The coat colour is even tone black, which pales very slightly at the roots. A shy lad but handled well and was shown in good condition. Overall, a reasonably nice young lad, but with a strong green rim to his eye, which is a withholding fault in an adult and he also had very strong competition from the class winner.

**BOB-** Hill's Pawsome Black Steel (BSH n) M 20/05/2019

#### **Class M195 British Chocolate Adult**

**BOB only** - Kisieliene's GrCh Garfield of Gerulis\*LT (BSH b) M 25/05/2017 (see class M190 above)

**BOB-** Kisieliene's GrCh Garfield of Gerulis\*LT (BSH b) M 25/05/2017

#### **Class M197M British Lilac Adult Male**

**1<sup>st</sup> CC** - Kehoe's Oscar Samante-Bohemia (BSH c) M 17/04/2022

Reasonably good, rounded contours to this boy's head, he is a little long in the nose and his muzzle a tad square. Medium-sized ears, slightly flared at base, but otherwise well set. Eyes round and well set but could be a bit larger and open for perfection, medium gold in colour. Chin fairly firm, slopes away a little, bite level. Reasonably good open expression. Again, pretty good breadth to chest and rump, and cobiness in the body, for his age and stage of maturity. Fairly well boned legs and firm paws. Tail thick at the base and rounded at the tip, with some shadow tail rings. The coat is quite dense, but a little long and soft. The coat colour is a frosty grey, fairly sound, but quite silvered. The coat colour could do with a bit more pinky blush for perfection. Overall, a nice tempered lad who handled well, but needs time to mature as he is a bit out of kilter at the moment and lacks balance and maturity in the head. Sufficient positive points for his CC and BOB today.

#### **Class M197F British Lilac Adult Female**

**1<sup>st</sup> CC** - Hill's Astralcharm Platinum Passion (BSH c) F 16/05/2022

Reasonably good roundness contours to her head. Good breadth to the muzzle which is very slightly square. Medium-sized well set ears. Firm chin. Bite very slightly over but touching. Eyes reasonably round, a bit obliquely set well set and with a bit of a flat top-line, of a medium gold colour. Expression a little closed and she is a little heavy browed. Fairly good breadth to chest and rump, and cobiness in the body, given her young age. Moderately well boned legs and firm paws. Tail thick at the base and rounded at the tip, but a bit short with some shadow tail rings. The coat is reasonably dense, but also a little long and soft. The coat colour is a darker shade of lilac which is quite sound and unsilvered. Overall, a sweet girl with reasonably type who deserved her 1<sup>st</sup> and CC today.

**2<sup>nd</sup>** - Kehoe's Irenovbr Luna (BSH c) F 09/03/2021

This girls head type is fairly good, but she lacks strength and roundness in the muzzle and has a rather shallow chin. Ears are medium in size and fairly well set. Is Bite level. Eyes round, but also a bit obliquely set and also with a flat top-line, medium gold in colour. She is also slightly heavy browed, but otherwise her expression is nice. Reasonable breadth to chest and rump, and cobiness in the body. Fairly well boned legs and firm paws. Tail thick at the base but tapers a bit to the tip. The coat is soft, long and lacking density. It lies quite flat down her back. The coat colour is a frosty grey, which is a little unsound at the roots and, but fairly un-silvered. The coat colour could also do with a bit more pinky blush for perfection. She was very sweet natured, and her head and body type were fair, but her coat was not her finest feature, hence her second placing today.

**BOB** - Kehoe's Oscar Samante-Bohemia (BSH c) M 17/04/2022

**Class M199M British Blue Adult Male**

**1<sup>st</sup> CC** - Kimaja's Teddybrits Franklin (BSH a) M 15/04/2020

Fairly good head type, he is a little flat on top. Broad, rounded muzzle. Small, neat well-set ears. Chin a little bit shallow, bite level. Nice strength behind the muzzle line. Expression reasonably good and open. Eyes fairly round and well set of a medium deep gold colour. This boy is well developed, a good size and has really good body type. Nice breadth to chest and rump, strength and cobiness in the body. Very well boned legs ending in strong round paws. Tail thick at the base and fairly rounded at the tip, of a good length to balance the body. The coat is short and dense but could be a tad crisper for perfection. The coat colour is a mid to dark blue, which is fairly sound and lightly silvered. Overall, a really good sized typy mature boy, well deserving of his 1<sup>st</sup> place and CC today.

**2<sup>nd</sup>** - Kehoe's Elon Von Shmidt (BSH a) M 24/02/2021

Head type showing rounded contours with reasonable width across the top of the head between the ears. He lacks a bit of width across the muzzle. Ears are a little on the large side, and flared at the base, but otherwise well set. Chin is a little bit shallow, bite is level. Eyes round and well-shaped and set of a good dark gold/copper colour. This lad is a reasonable size with fairly good breadth to his chest and rump and cobiness in the body. Well boned legs ending in firm paws. Tail thick at the base but tapers a bit at the tip, of a good length. The coat is short, crisp and dense. Coat colour is also a mid to dark blue, which pales slightly at the roots and is very lightly silvered. Overall, quite a nice lad, with a nice coat, but lacking a bit of maturity. However, his show preparation really let him down a bit today, as he had very heavy staining to the back of his hind legs.

**BOB only** - Kisieliene's Ch Just Enjoy Navahoo (BSH a) M 26/11/2020 (see class M191 above)

**Class M199F British Blue Adult Female**

**1<sup>st</sup> CC** - Kisieliene's Polly of Harmony Gardens (BSH a) F 17/05/2022

Reasonable head type, she has quite nice, rounded contours overall and width across the top of the head. Her ears are a little large and stand tall on her head. Chin is fairly firm, bite level. Expression is bit closed. Eyes fairly round, but with a bit of a flat top-line and she is very heavy browed. Medium gold eye colour. She is a good size for her age and stage of development. Body type is fairly good, she has some breadth to chest and rump, and cobiness in the body. Well boned legs and nice round paws. Tail thick and rounded at the tip, of a good length. The coat is fairly short and dense with some feeling of resilience. The coat colour is a mid blue, which pales at the roots and is quite heavily silvered. A slightly shy girl, but she handled well out of the pen, with reasonable type and coat, with some maturing still to do.

**2<sup>nd</sup>** - Kimaja's Furryblisslove Arnusha (BSH n) F 10/05/2022

Head type fairly round, but she could do with a bit more width across the top of the head. Muzzle is little square. Her ears are medium in size and also set a little tall on the head. Chin is firm, bite level. Expression is fairly open. Her eyes are round and nicely shaped and fairly well set. However, her eye colour is gold at the periphery, but with a pronounced green rim, which is a withholding fault. She is a little small in size overall, but her body type is fairly good, with some breadth to chest and rump, and cobiness in the body. Reasonably well boned legs and round paws. Her tail is thin and tapers to the tip, with some shadow tail rings. The coat is reasonably short and dense with some feeling of resilience. The coat colour is a mid-blue, which pales at the roots and lightly silvered. A sweet girl who handled well, but her eye colour is incorrect hence her second placing today.

**BOB** - Kisieliene's Ch Just Enjoy Navahoo (BSH a) M 26/11/2020

### **Class M201 British Black Silver Tabby Adult**

**1st CC** - Wren's Delphinium Summer-Morning (BSH ns 22) F 10/07/2020

Reasonably rounded contours to the head, she is a little flat on top. Medium-sized, slightly flared ears, but otherwise well set. Eyes fairly round and well set, with green colour to centre. Chin firm, bite level. Could have a bit more width and roundness to the muzzle for perfection. Nose is a little long. Reasonably good open expression. Her body development is good and she is a nice size. Again, reasonably good breadth to chest and rump, and cobbiness in the body. Moderately well boned legs ending in firm paws. Tail thick at the base tapering a little to the tip, with clearly defined broad black, well separated tail rings. The coat is reasonably short and dense, with some feel of crispness overall. The coat colour is intense inky black pattern on a bright silver ground colour, with the pattern elements showing good contrast to the ground colour. All elements of the classic pattern are good, with one complete necklace and reasonably complete oysters. Butterfly is quite well formed, multiple bars down the legs. Although I thought her head type could have been a bit rounder overall, the profile shorter and muzzle broader, I liked her overall body type, pattern and coat. She was a sweet natured girl who handled well and seemed to take the day in her stride. Happy to give her CC and BOB today.

**BOB** - Wren's Delphinium Summer-Morning (BSH ns 22) F 10/07/2020

### **Class M207 British Bluecream/Lilac Tortie/Fawn Tortie Adult**

**1st CC** - Kisieliene's Amberkiss O'Lialia (BSH g) F 28/10/2020

Really nice head type on this girl, with rounded contours from all aspects and nice width to the muzzle, which is very slightly squared off. Short and balanced in profile. Ears medium to small in size and well set. Eyes round, well set and opened, of medium/pale gold colour. Chin firm, bite level. Really good open expression. Nice body type, with breadth to chest and rump, and cobbiness in the body. She is a fairly good size. Standing low on well boned legs with firm round paws. Tail thick at the base and rounded at the tip, of a good length to balance the body. The coat is short, dense and fairly crisp. The coat colour is shades of mid blue, light and dark cream, which are fairly well mingled, with some stronger patches of cream on the throat and chest, but still broken with contrasting blue colour. Colour broken to all four paws. A really nice girl, happy to give her CC and BOB today and my second pick of the day.

**BOB** - Kisieliene's Amberkiss O'Lialia (BSH g) F 28/10/2020

### **Class M215 British Bi-Colour Adult**

**1st CC** - Cosma's Iresymbr Donna (BSH c 03) F 20/07/2021

Round contours to the head, with good width across the top between the ears. Medium-sized, well-set ears. Eyes round and well set of a medium gold in colour. Chin firm and bite level. Nice short profile and good expression. Reasonable body development with some breadth to chest and rump, but she was looking a little out of kilter and immature in the body at this present time. Fairly well boned legs and firm paws. Tail thick at the base and rounded at the tip. The coat was short and crisp but could have been a bit denser for perfection on the day. The coat colour was a nice shade of frosty lilac with some blush colour to it, fairly sound to the roots. Just about 1/3 white to colour with a nice inverted V over her face. A nice girl, but could do with a bit more substance in the body.

**BOB** - Cosma's Iresymbr Donna (BSH c 03) F 20/07/2021

### **Class M218M British Colourpointed (incl Cinnamon/Fawn) Adult Male**

**CNH** – Dagger's Jasper Romeo (BSH b 21 33) M 05/06/2020

### **Class M218F British Colourpointed (incl Cinnamon/Fawn) Adult Female**

**1st CC** N/A - Richardson's Sandylane Matilda (BSH c 33) F 21/04/2021

Nice round head and expression, with good width to the top of head. Ears medium in size, well-shaped and set. Eyes round and well set, with good blue colour to centre. The chin is firm, but the bite is undershot. Her body type is

good, with some breadth, strength and cobbyness, but a little immature looking at this present time. She could do with a bit more heft and substance. Good boning to legs, ending in firm round paws. The coat texture is good, short and crisp with reasonably good density. The coat colour is pale magnolia with balanced colour to the points on the head, legs and tail. The points colour was a pale rather bluish shade of lilac, which could have had a bit more pinky blush and warmth for perfection. A sweet-tempered girl who handled well but she was undershot, hence the rationale for withholding the CC and BOB

**BOB** – N/A

### **Class M220 British Golden Tipped Adult**

**1<sup>st</sup> CC** - Kimaja's Flash's Tomas (BSH ny 12) M 16/03/2021

Head type is round, with good width across the top between the ears, he is however somewhat short in profile. Medium sized well set ears. Bite level. His muzzle could be a bit broader and rounder. Eyes round and with green colour to centre. Bite level and chin firm. Some strength behind the muzzle line and round cheeks. The body type is good, with breadth to chest and rump and short cobby body. He could have a bit more substance in the body for perfection, for his age and stage of development. Tail thick at the base and rounded at the tip. Standing low on well boned legs. His coat is a little long and lacking in density, but has a nice crisp feel. The coat colour is a mid apricot basecoat, which darkens somewhat at the roots, but is evenly and fairly lightly tipped with black. A nice boy, his coat was a little lacking in density on the day, but he handled well and was deserving of his awards today.

**2<sup>nd</sup>** - Kimaja's Furryblisslove Bourjois (BSH ny 12) M 12/04/2022

Head type is round, however he is really very short in profile and has deep gutters under his eyes. His head is somewhat over-typed and he is correspondingly very undershot. His expression is somewhat closed. Medium sized well-set ears. Eyes round and with some hint of green colour to centre, but the eye colour is a bit muddy. Chin firm. The body type is very good, with breadth to chest and rump and short cobbyness in the body. Tail thick at the base and rounded at the tip. Again, standing low on well boned legs. His coat is a little long, but dense and crisp. The coat colour is lovely rich apricot basecoat which is evenly and lightly tipped with black. This boy actually had many positive features, particularly his coat texture, colour and tipping but he is severely undershot, which is a withholding fault.

**BOB** – Kimaja's Flash's Tomas (BSH ny 12) M 16/03/2021

### **Class M226 British Longhair Adult**

**1<sup>st</sup> CC** - Hill's Astralcharm Pinky Promise (BLH c 03) F 01/04/2022

Nice rounded head type, with balanced medium profile. Medium-sized nicely set and shaped ears. She is a tiny bit heavy browed, but otherwise has a nice expression. Eyes round and well set of a lovely shade of deep gold. Chin firm and bite level. Fairly good breadth to chest and rump, and cobbyness in the body, well boned legs and firm paws, with tufts between the toes. Tail thick at the base and rounded at the tip and a good length. The coat is reasonably dense, some feel of resilience, semi-long in length and flowing. Ruff developing. The coat colour is a mid-shade of lilac, it could do with being a bit lighter in shade and have more of a pinky blush for perfection. Clean demarcations to the white patching. Nicely prepared and handled well out of the pen.

**BOB** - Hill's Astralcharm Pinky Promise (BLH c 03) F 01/04/2022

### **Class M229 British Black Kitten**

**1<sup>st</sup>** - Slabodica's Iresymbr Apollo (BSH n) F 06/10/2022

This little lad's head type is fairly round, but he is very slightly long in the nose and narrow in the muzzle. Ears small and well-shaped and set. His bite is level and chin firm. Eyes round, and well-shaped, the eye colour is still developing. His body type is reasonably good for his age and stage of development, with some weighty feel and

substance. Legs short and strong, ending in rounded paws. Tail thick at the base but tapers a bit. His coat is short, quite dense but a bit kitten soft at the moment. The coat colour is mostly solid black, , with some ghost shadow markings, but it is flecked with quite prominent, white-tipped hairs, which is most irregular, as they mainly appear in lighter part of the ghost markings. This may be fever coat, but this unevenness of coat colour is the rationale for withholding the BOB unfortunately.

**BOB** - N/A

#### **Class M229M British Blue Kitten Male**

**1<sup>st</sup>** – Cosma’s Mitzuro Fig (BSH a) M 01/08/2022

Fairly good rounded head type, however he is a little short in the profile and overtyped. Small, neat well-set ears. Round eyes, fairly well set, with eye colour developing, a bit muddy at present. Chin firm and bite level. Expression a little closed. Body type is good, obviously he is still a baby, but he is balanced in the body, with strength and cobbiness evident. Short thick, well boned legs with round paws. Tail thick at the base and rounded at the tip. The coat is short and dense with some crispness, a little kitten soft at the moment. The coat colour is a mid-shade of blue, which is mostly sound. A sweet lad who handled well.

#### **Class M229F British Blue Kitten Female**

**1<sup>st</sup>** - Kehoe’s Federika of Last Hope (BSH a) F 04/09/2022

I liked this girl. Rounded head type and small, neat well-set ears. Round well-shaped eyes, they could be a bit bigger and more open for perfection. Eye colour developing, a bit muddy at present, but deep gold coming to centre. Chin firm and bite level. Her expression is nice. Body type is good, solid and cobby, standing fairly low on well boned legs ending in firm, round paws. Tail thick at the base and rounded at the tip. The coat is short, dense and fairly crisp, but also a little kitten soft at the moment. The coat colour is a mid-to pale shade of blue, which is fairly sound. A nice typy girl, shown in nice condition and with a nice temperament, who I liked a lot.

**2<sup>nd</sup>** - Slabodica’s Iresymbr Abby (BSH a) F 11/09/2022

Fairly rounded contours to the head. Ears medium in size and set a bit upright. Eyes round with colour developing. Expression is fairly open. Chin firm and bite level. Her body type is fairly good, she is a little rangy in the body at present. Legs are fairly well boned, they narrow a bit at the base into the paws. Paws firm. Tail thick at the base and fairly rounded. The coat is short and has some feel of resilience but could be a bit denser for perfection. The coat colour is a mid-shade of blue, which is fairly sound. A sweet girl, who handled well and shown in nice condition.

**BOB** - Kehoe’s Federika of Last Hope (BSH a) F 04/09/2022

#### **Class M250 British Bicolour Kitten**

**1<sup>st</sup>** - Wang’s Iremonoobr Angela (BSH a 03) F 23/08/2022

Good roundness in the head width across the top. Ears medium in size, set a little upright. Chin firm, bite level. Eyes are round but a bit obliquely set and she is a little heavy browed. However, the eyes are a good intense shade of deep copper/gold. Very well grown and a good size. She has quite good body type, a little out of kilter with her head and body development at the moment, as she starts to approach adolescence. Standing a little tall on her legs, but the legs are well boned. Tail thick and rounded. The coat is short dense and fairly crisp. Coat colour is a nice shade of mid blue, fairly sound at the roots and unsilvered, with good clean demarcation to the clean white patching. Approximately 1/3 white to colour, with inverted V over the face and collar. A good sized, well grown girl, deserving of her awards and was awarded best kitten. Congratulations!

**Absent** - Wang’s Niceday Anna (BSH n 03) F 06/07/2022

**BOB** - Wang’s Iremonoobr Angela (BSH a 03) F 23/08/2022

### **Class M260 British Longhair Kitten**

**1<sup>st</sup>** - Kimaja's Furryblisslove Carmen (BLH ny 25) M 08/09/2022

Head type is fairly good, with rounded contours and width between the ears. He is a little short in profile and has slight gutters under his eyes. Small sized well-set ears. Bite is very slightly under but touching. Eyes round and with good deep green colour coming to centre. Chin firm. Some strength behind the muzzle line and rounded cheeks. He is a little on the small size, but he is still young. Overall, his body type is good and he is solid and stocky. Tail thick at the base and rounded at the tip, with coat plumes. Legs short and well boned, with tufted toes. His coat is semi-long and flows nicely, with nice density and resilience. He has a bit of a ruff. The coat undercoat colour is lighter shade of apricot, which is evenly ticked, although the three bands of ticking are not strongly evident. Some faint tabby markings to the face. A sweet lad.

**BOB** - Kimaja's Furryblisslove Carmen (BLH ny 25) M 08/09/2022

### **Class M297 British Longhair Neuter**

**1<sup>st</sup> PC N/A**— Kiely and Walsh's Irenovbr Guffy (BLH b) MN 22/03/2021

This lad's overall type is quite good. Nice balanced head type, with good, rounded contours. Medium-sized well set ears, slightly flared at base, but otherwise well set. Eyes round, well opened and set. But although the periphery of the eye is medium gold in colour, he has a very strong green rim around the iris. Chin firm, bite level. Nice expression. Good breadth to chest and rump, and some cobbiness in the body. He could have been a little weightier. Well boned legs and firm paws. Tail thick at the base and rounded at the tip, with plummy feathers. The coat is semi long and resilient, however the preparation was very inadequate. The coat colour is a nice warm shade of chocolate, paling a bit at the roots. Overall, I thought he was quite a nice lad, but he had a green rim to his eyes and his coat show preparation let him down a bit today.

**BOB** - NA

### **Class M556 Pedigree Pet Shorthair Kitten**

**1<sup>st</sup>**— French's Bosie (PPS n) MN 11/08/2022

A sweet little chap of brown Burmese type. Lovely type and coat. Beautifully presented and charmed me with his very nice personality.

**2<sup>nd</sup>** – O'Shea's Jolleytots Skylar-O Shea (Shorthair Pedigree Pet (SIA b)) MN 19/05/2021

Well grown cat of tabby point Siamese type. Not in the best of moods by the time we got to him today. Lovely looking boy, but I was not able to assess him fully as I think he had had enough.

**BOB** - French's Bosie (PPS n) MN 11/08/2022
