

Many thanks to Carmel & Colm for my invite to judge. Such a wonderful friendly welcome over here in Ireland. We were treated to a super pre-show dinner, and the company was lovely. I had the pleasure of my husband, Gary's, as my steward which was a lovely change. We had some excellent cats – especially the wonderful Maine Coons.

Hibernian Grand Premier (Invictus class) Male;

Hazel eyes of good size & shape. Nose showing good concave curve in profile. Good width to his cheeks. Excellent square muzzle. Level bite. Very good strength & depth to his chin. Wonderful coat that was expertly presented. Good tabby markings to his head, legs and tail. Slightly diffused to his body. White to his chin, bib, underneath & paws. Huge boy with excellent body length – perhaps just a fraction chubby! Tail to balance, well furnished. Superb, friendly temperament.

Grand 2C Champion Male;

GCC STEINER-BROWNE'S CH FRIENDLYGHOST BIG BEAR (MCO n 22, M, 19/5/22).

Young Brown Tabby Maine Coon boy of lovely type. Good breadth to his head. Ears of good size, set well and showing good tufts and furnishings. Hazel eyes of good size & shape. Nose showing shallow concave curve in profile. Fairly good width to his cheeks – he's still developing so hopefully this will broaden a touch when he is fully mature. Level bite & good chin. Good square muzzle. Mid bronze ground colour, with jet black tabby markings. Just a fraction solid along his back at present. Very well grown boy with good body length – perhaps just a touch chubby. Tail of good length to balance, well furnished. RES PIOTRKOWSKI'S CH VISTULA MERLIN (SIB n 22, M, 20/10/20).

Attractive Brown Tabby Siberian lad of good balanced type. Broad head with ears of good size sets ell. Pale hazel eyes of good size & shape. Nose showing break in profile. Also considered;

SWIACKA'S INT CH GATTACAMOON VOLTURION (MCO ds 11, M, 24/4/22).

Attractive Red Silver Shaded Maine Coon boy who is still looking a touch adolescent. Ears of good size & shaping good tufts and furnishings, but set slightly too wide & oblique. Orange eyes of good size & shape. Good shallow concave curve in profile. Fairly good width to his cheeks. Level bite & good chin. His muzzle is fairly square – could be a touch broader. Excellent coat which was beautifully prepared. Clear silvery white with mid red tipping. Super body shape & size. Wonderful show temperament.

WAGNER'S CH ISHCUS QUIET ASSASSIN (MCO ns 03 22, M, 18/6/19).

Mature Silver Tabby & White Maine Coon boy – just a little too short in the muzzle, which detracts a little from his Maine Coon expression. Ears of good size, and with good tufts and furnishings, just set a little too far apart. Green eyes of good size & shape. In profile his nose shows a break rather than the desired shallow concave curve. Very broad cheeks. Level bite & good chin. Good squareness to his muzzle. Attractive coat which was of good length & well presented. White inverted 'V' to his face, with white to his legs and underneath. Mid silver ground colour with good black tabby markings. Slight

tarnishing to his shoulders. Body very well grown – I would like the shape to be slightly longer for balance. Well furnished tail to balance.

Well balanced Brown Tabby Maine Coon girl of good type. Ears of good size set well, and showing good tufts and furnishings. Hazel eyes of good size & shape. Nose showing good shallow concave curve in profile. Fairly good width to her cheeks. Level bite & good chin. Good square muzzle. Her coat is of good length, but needed more show preparation today – especially underneath & to her trousers. Good tabby markings generally – just a little solid to her back at present. Well grown girl – perhaps just a touch too long in the body. Tail to balance.

2 CHRAPALA'S PURRSTORM JOHN RAMBO (RAG n 03 21, M, 2/9/22).

Young Seal Tabby Bi-Colour lad who has rather too broad a muzzle & cheeks to give a good Ragdoll type – this is verging on Persian type. Ears of good size set well. Pale blue eyes of good size & shape. Nose shows a break in profile rather than the required dip. Level bite. Fairly good chin. His coat is just slightly woolly in texture, but fairly well prepared. Inverted 'V' to his face with white to his legs and underneath. His tabby markings are very cool to his head – verging on silver, but brown elsewhere. White patch to his back. His body is well grown, but the shape is rather cobby. Good tail.

Norwegian Forest Adult Female;

1 CC McLELLAND'S STRANGRF JORDR VANNA (NFO ds 09 22, F, 10/5/23).

Sweet girl, still very adolescent but promising. Good triangular head shape, but she's puffing her whisker pads at present, which spoils the line a little until they are smoothed down! Good straight profile. Expressive deep orange eyes that are of good size & well opened. Level bite. Her chin could be a fraction

stronger. Coat of good length & expertly prepared. Double coat still to fully develop. Body of good length & well muscled. Tail to balance, well furnished.

Nose showing quite a strong concave curve in profile. Good width to her cheeks. Level bite. Good square muzzle. Good strength & depth to her chin.

Coat of good length & well prepared. Mid mushroom ground colour with good dark blue tabby markings to her head, legs, tail & flanks – just slightly solid to her back at present. Very well grown body of good length. Tail of good length to balance, very well furnished. Excellent show temperament.

Imposing Blue lad of very promising type. Good breadth to his head. Ears of good size, set well and showing good tufts and furnishings. Pale orange eyes of good shape – I would prefer them just a fraction larger. Nose showing shallow concave curve in profile. Fairy good width to his cheeks – to develop as he matures.

Level bite & good chin. His muzzle is square – and again I'd like to see this broaden a touch as he matures. Excellent coat which was very well prepared & of good length. Dark blue & almost sound. Excellent length to his body & well muscled. Tail to balance, well furnished. Super show

temperament.

AOC Maine Coon Kitten Female;

1 SHACKLETON'S ISHCUS WHISPERING WILLOW (MCO ns, FN, 5/8/23).

Cute Black Smoke girl of good type. Ears of good size set fairly tall & showing good tufts and furnishings. Orange eyes of good shape & fairly good size. Nose showing shallow concave curve in profile, just with a very slight bump. Fairly good width to her cheeks. Level bite. Fairly good strength & depth to her chin. Her muzzle is fairly square, just needing to broaden a touch as she matures. Her coat is of good length & it was well prepared. She is showing some kitten greying to the back of her ears and to her trousers, but no smoke evident on the coat generally. It led me to wonder if she is actually a Smoke or a Black just going through the kitten greying phase. Time will tell! Well grown body of good length. Tail to balance, well furnished.
