Huge thanks to Ronnie Carmel and their teams for the invite to judge and their huge hospitality during my stay. Not a big entry but a quality one so I had a lovely day. Thanks also to my steward (sorry I didn't get your name) but it was his first time and he did a sterling job.

Lovely balance to her broad apple shaped head that has lovely chubby cheeks, a strong rounded muzzle and well set small neat ears that follow the rounded contours of her head. She has super large round well opened copper eyes that are set well apart giving her a lovely open expression. In profile pleasing depth to head and a rounded brow with a short straight nose and a deep level chin and level bite Her coat is short and dense but a little soft at the moment and is a mid blue. An absolute sweetheart who was a joy to handle

Not quite 4 months old but showing like a veteran. I loved his type and poise, he has a well structured body of medium length that feels firm and muscular with a nicely rounded rump and stands tall on slender elegant legs that end in neat oval paws with long toes with thick well padded pads and a long prehensile tail that is nicely shaped and balances his body. His head shows a beautifully balanced modified wedge with rounded contours with prominent cheek bones and a broad rounded muzzle with well pronounced whisker pads and good width between his super large ears that are set on a broad base giving him a nice alert look. In profile he has a pleasing rounded skull with a flat forehead, and very slight stop to his straight nose. His eyes are large rounded lemon shaped and are set wide apart with a slight oriental slant giving him the sweetest expression. He is covered in a very fine soft down still having some guard hairs across his back with a thicker covering on his muzzle and the backs of his ears with a lovely wrinkled brow. A huge character in a small body who is a real time waster with the loudest purr!!

Just old enough to be in this class and looking a bit like a big kitten. She has a weighty muscular elegant body and stands tall on slender limbs that finish in neat oval paws, with balancing length to her well shaped tail. Her needs time to mature and develop but shows promise and has a gently rounded top to her head between well spaced correctly shaped large ears that have a broad base and rounded tips and are set with a slight forward tilt their outer line following the outline of her wedge. In profile she has reasonable depth to her

head and a nicely rounded brow with a fair break to her short straight nose that is in a straight vertical plane to her firm level chin is firm. Her wedge is short and fairly broad and just shows a slight whisker pinch. She has large lustrous yellow eyes that have very good shape and set with the top line slanting towards the nose and a fuller more rounded lower lid, set wide apart giving a lovely Asian expression. Her coat is quite short and lays well with a pleasing shine and shows cool chocolate ticking on a pale ivory base, she has attractive tabby markings to her face with an M on her forehead, pale spectacles with dark brown mascara, pencilling to cheeks, broken necklace and solid tip to tail. I wondered whether she was actually brown and not chocolate as although her coat markings a pale they are a little cool and she has deep dark brown paw pads. A shy girl who wasn't showing herself to her best but still allowed me to handle her.

AV 6 – 9 months kitten

**1 Duffys LUXDON TIGERLILLY (SBI n 21) 04/06/19 F**

Adorable baby girl of just 8 months who came out the pen already showing off her gloves and gauntlets. She has a beautifully balanced body that is of good weight and stands on proportionate legs with short rounded paws and balancing length to her well furnished tail. She has a lovely strong well rounded head with lovely rounded cheeks with a strong muzzle and chin. Her medium sized ears are that well set with good width between them. Her eyes are large and a mid blue in colour with a really sweet feminine expression. In profile shows a slight dip to her medium length nose. Super texture to her pale off white coat with very good contrast to her tabby markings. She has evenly matched white mittens with white socks covering the whole of her rear paws with gauntlets tapering up the back of the leg ending just below the point of the hock. It was a pleasure to judge this sweet gentle girl.
