Special thanks to Chris Coyles for undertaking a mammoth journey and coming to steward for me – hope we can work together again soon. Finally special thanks to my fellow judges for your good company over the weekend and to Rosemary for driving

Gr Howards Ch COCO WAVE CULT (CRX n 03)18/10/21 M

Nice size to this young lad who has a slender well balanced body that feels firm and muscular and stands tall on long slender legs that finish in neat oval paws and a long tapering tail that is well covered in short wavy fur. His head is held on an elegant neck and is a pleasing wedge shape with characteristic high cheek bones and a strong rounded muzzle. He has proportionately large wide based mussel shaped ears that have rounded tips and are set high on his head. In profile his skull is flat with a gentle curve at the brow and a virtually straight plane to the nose and a firm level chin. He has large expressive oval shaped eyes that have an almost straight topline and slant slightly to the outer edge of his ears. Lovely silky texture to his short fairly dense coat that shows medium waves and was just a little flat on the spine line and is free from guard hairs. A sweet natured boy enjoying our cuddles

She stands on proportionately long firm legs that finish in neat paws with long well padded toes. Her head shows a nicely balanced modified wedge that has pleasing prominent cheek bones and a broad rounded muzzle with a nicely defined whisker break and prominent whisker pads. Her ears are large and wide open at the base and are correctly set at a slight angle. In profile her forehead is flat with a straight nose and slight break at the bridge, with good depth to her level chin. 1 PC & BOB Mackenzies DADDYO TALKIE TOASTER (DRX b) 14/09/21 MN

Well grown lad with a super name. He has a medium length body of good weight, that stands on elegant slender legs that finish in small neat oval shaped paws, with a long tapering tail that is well covered in very short curly fur. His elegant neck holds a short wedge shaped head that has characteristic high cheek bones with a strong muzzle with a fair whisker break and firm chin. He has super large ears with muffs and tiny tufts that sit on a broad base with rounded tips but that would benefit from more width between them. His profile shows a rounded brow that leads to a flat skull with a gentle stop to his nose that just slopes away, good level bite. He has medium sized oval eyes that are set well apart and slope towards the outer edges of his ears. He is evenly well covered in a short soft coat that is evenly waved with lovely short crinkly whiskers and eyebrows. A sweet lad who was a pleasure to judge

Grand Champion Male

Gr Steeles Ch LUXDON BUBBALOO (BUR n) 14/03/21 M

Not a big lad but nicely balanced with a firm muscular body that stands on slender legs with oval paws with balancing length to his nicely shaped tail. His top of head just shows some slight flattening between his well spaced medium broad-based ears that have gently rounded tips and set with a slight forward tilt their outer edge following the contour of his wedge. In profile he has a nicely rounded brow with a good break to his short straight nose and his chin recedes slightly. He has lustrous yellow chartreuse eyes that have the topline slanting towards his nose with a fuller more rounded lower lid, they are set well apart giving him a glowering expression that for me could be larger. His wedge is short and wide and narrows to a pleasing blunt muzzle. Lovely texture to his warm seal brown coat that is longer than ideal but lays close to his body and has a lovely sheen. Shown in lovely condition with a gentle cuddly nature, however when he soon discovered that the queen next door was in full call and got a little over excited.

A good looking lad who really would not co-operate today. We gave him time and went back later but even Chris's sweet talk didn't work and sadly we had to leave him be
