

WARNING SALE OF KITTENS

There has been a massive increase in scams and false information being given to prospective buyers. Please be aware of the following:

- Sellers are saying it is too expensive to register. **FACT** - the maximum price per kitten is €15 + €6 administration fee per litter.
- Buyers are being given copies of parents' registration certificates and told they will be able to register the kitten. **FACT** – A mating certificate will be needed to do this which sellers are then refusing to provide.
- Underage kittens are being sold and buyers being advised that they are older.
- Inflated prices are being charged, often far more than a registered kitten would cost.

Please be very careful when buying via adverts in publications. Make yourself familiar with our advice of Buying a Kitten.
