13th September 2026

Judge: Wayne Vessey

It was a real privilege to be in beautiful Blarney for the Cork Cat Club Championship show. Grateful thanks again to Colm and Rowena, for not only the invitation but also for their wonderful kindness and hospitality. The whole show team worked so hard and that reflected in everything running in a friendly but super organised fashion. A show you should all be proud of. Annette Howard was my steward, and a fine one too – thanks again Annette for your considerate handling of our charges, great company and mega efficiency – much appreciated. Some fine examples presented in Section 3 today, congratulations to all of the exhibitors and all the best of luck for the future.

Hibernian Grand Champion Male

This Chocolate colourpointed male is presently at his summer weight, looking just that tad athletic in build but certainly with masculinity and substance. He has a round head, with a good placement of the medium sized ears. He is more jowls than cheeks, but the impression is round, the muzzle is just a shade narrow. Very good profile. His eyes are round, set well apart and a clear shade of blue – they could be a bit larger for perfection. He has straight, strongly boned limbs and firm rounded paws, the tail tapers to a rounded tip and balances to his body. His short coat is changing but retains a good texture and density. He has some warmth to his points which show a good contrast against an ivory body, and minimal shading. A composed and relaxed lad who was well presented.

Hibernian Grand Champion Female

n/a Ms Kimaja Gr Ch AURUM BLOOSOM DANAYA BSH ny 12 F 11/09/2022

This is a smaller girl with appropriate boning for her size. At 4 years of age her round head could be a little bit more developed in terms of cheeks and muzzle. The larger ears show had tufts to the tips. Standard profile. The bite is very slightly undershot but touching. She has large lighter green eyes and an open look. She is changing coats, it is a bit soft and longer than standard, and needed a little bit more preparation. She has a cooler apricot ground, with some tabby markings to the face and quite heavy tipping over parts of the body. Not in the best of moods on the day and somewhat unhappy at being handled.

Hibernian Grand Premier

H Gr Pr to Mrs Iqbal Gr Pr & Int Pr AMBERKISS OPAL BSH c FN 04/05/2023

Big, strong, substantial and typy female. She has a broad, round head with medium sized, round tipped ears and full cheeks, very good muzzle lines and a standard profile. Her eyes are a lighter yellow toned gold, they are large, round, and expressive. She has excellent body structure with defined muscle tone and strong powerfully boned limbs with firm and round paws. The tapering thick tail has a blunt tip. Her coat is slightly over standard length, dense and just a shade soft. She is a bluer toned lilac, which is quite evenly toned with just a slight paling to the roots. She was not in the most accommodating of moods but handled OK. A female of very good type and build who was very well presented.

Grand 3a Champion

This is a smaller Golden tipped who is not quite at the level for masculinity, substance, and bone for a British male of his age. He has a round head, with medium sized ears, the muzzle is slightly narrow. He has a rounded forehead and a broad, straight nose, the chin recedes. The eyes are large, round, and expressive. They are a clear and even green in colour but don't show any liner to the rims. He has a lighter cooler ground with even tipping, and ivory on the chin, chest, and underside. He has a standard-length coat with good texture. A nice natured lad who handled well

British Black Adult

Smaller, but well-balanced girl who is a good weight for her size. She has a round head with well-placed ears, moderate cheeks, muzzle could be a tad stronger, good profile. The bite is a bit untidy. Her expression is open and confident with large, orange eyes set and used well, She has good body proportions and straight limbs with firm, round paws. Balanced tail. Her coat is quite short, changing but still with good density, the black pigment, quite sound but just a little sun kissed in places. Very good show temperament and handled well.

Medium size girl with medium strong bones and good overall balance. She has a round head with the ears set well in the contours and of medium size. Her cheeks are filling out, the muzzle is a shade narrow. She has a good profile where the chin could be a little bit firmer. The lighter orange eyes are even in tone, large, round, and open. She has very good body proportions and toning to the frame. Her limbs have good bone, and the paws are firm and round, balanced tail. She has slight tipping to her blue toned fawn pigmentation. The coat is slightly above standard length, it is thick with good texture. Very good show temperament.

British Lilac Adult Male

Well grown but still adolescent male of very good British type and structure. The head is masculine, round and shows a gentle curve to the top. The medium sized ears fit well into the contours and have rounded tips. His cheeks are well filled out, the muzzle is slightly narrow. Very good profile. He has an open and very typical expression with the large, round eyes set well apart – their colour an even and vibrant rich copper toned orange. He has very good body proportions and muscle tone, strongly boned limbs and firm, rounded paws, thick balanced tail. His coat is short, dense and with a crisper texture. There is a definite pinky hue to his lilac pigmentation which has a good level of soundness. This handsome exhibit handled with ease and was presented in perfect condition. He was later Best Adult in Section 3.

2 Mrs Cuadro MIAMOREPAWS MILO BSH c M 07/09/2025

Also adolescent this lad is just a tad behind the winning male in his development, but is certainly a very good example for his age. He is a good size, strong and masculine. The round head is already developing breadth and the cheeks are filling out well. His ears are slightly over medium size. The muzzle is just a shade narrow. Very good profile. His orange eyes are large, round, and

open. He uses them with confidence. He has a solid frame, strong limbs and firm rounded paws, balanced tail. He is a bluer toned, sound shade of lilac, the coat is just over standard length, thick, dense, and well textured. He has a kind show temperament and was very well shown.

This is a larger framed girl, who stands just a tad tall but is certainly substantial and still well proportioned and balanced. She has a round, well developed head with neat ears. Very good profile where the chin could be a shade firmer. She has large, round, lighter orange eyes with an open and confident look. The body is solid and muscled, her legs straight and well boned with firm, round paws. Balanced tail. She is a mid-toned lilac with good soundness, her coat is a shade long but thick and dense with good texture. She was a joy to handle and very well prepared for the show.

British Cream Adult

Medium sized male with good bone and substance. He has very good head type with rounded lines and neat, round tipped ears. Very good in profile but the chin should be stronger. He has round, open orange eyes which are a good size and set well apart with an open look. The body is compact, and his legs are well boned and sturdy with firm and round paws, his tail tapers to a rounded tip and balances to the body. His coat is short, dense, and well textured despite presently changing. He is a paler cream on the head, neck, chest limbs and underside, it is warmer on the back with some slight paling to the roots. The tail is darker with hints of ghost rings. A quiet lad of very good type and overall balance

British Tipped Adult

CC N/A Ms Kimaja IREMOOBR ARON BSH ns 12 M 08/05/2023

Medium sized male with a taller frame. The ears are medium sized, well set and with rounded tips, he has moderate cheeks and a narrower muzzle. A rounded forehead and a straight broad nose, the chin should be firmer. There is liner around the eyes which are large, round, and expressive with clear even green pigment, his brick red nose leather is also lined in black. His body has an appropriate weight for his size and is solid, the tail tapering to a rounded tip and balancing to it. He has straight limbs and firm, round paws. His coat is fairly short with good density and texture. He has a white silver ground, with some tabby markings: a necklace to the chest and some bars to the limbs, there are also some rings to his tail. The tipping was evenly distributed over his body. He was quite stained around the tail and rear limbs. This lad has a really good show temperament and handled well.

British Golden Tipped Adult Male

CC n/a P A Kolodziejczak DAVIWAY Y-AMOR BSH by 12 M 12/05/2025

A medium sized typy young male. He has a round skull with near ears and round cheeks. The brow is a shade heavy, he has a broad and straight nose. The chin is defined, and his bite is

undershot. The green eyes are large, round, and expressive. He has a compact build, well proportioned limbs and firm, round paws. Thick balanced tail. His coat is of over standard length, presently changing but with some density and texture. He has warmer tone to his apricot ground and chocolate tipping, which was evenly distributed over the body. A friendly lad who handled well.

A female of a good size and weight, well proportioned and with strong bones. Youthful for her age. She has a round head with neat ears showing some internal furnishings. Good filling out of the cheeks. She has a good profile. Her eyes are large, round and an even shade of green with an open expression. She has a compact body with shorted limbs, firm and round paws, balanced tail. The semi long coat has some density and resilience, the lighter apricot golden ground pales to ivory down the chest, limbs, and underside, she has moderate and even tipping. Very good show temperament

2 P A Kolodziejczak CARMEN GENTLE RAY BLH ny 12 F 05/11/2024

Mature looking, typy female with a round head and neat ears. She has rounded cheeks and some narrowness in the muzzle. Good profile where the chin could be a little bit firmer. Untidy bite. Her expression is open and confident, the green eyes are large and set well apart. She has some warmer tones to her apricot ground which has fairly even tipping, her coat is presently showing the effects of summer and lacking some density and texture as a consequence. Nice nature.

1 Ms Kimaja FURRYBLISSLOVE GRAF BSH o M 12/01/2026

This young male is of over medium size with good substance. He has a good top of head with well placed medium sized ears showing rounded tips. The cheeks are rounded, his muzzle a shade narrow. Good profile where the chin could be a little bit firmer. There is presently a slight green rim to his orange eyes which are round, a good size and open. He has a firm body with well boned limbs and firm, round paws, balanced tail. His coat is a tad over standard length, dense and with good texture, a warm cinnamon in colour with some paling to the roots. A quiet lad but handed well.

This is a well-balanced and compact kitten of very good type and structure. She has a round head with neat ears, chubby cheeks, and good muzzle lines. The forehead is rounded, her nose is short, broad, and straight, good depth of chin. Her expression is open and breed typical, the eyes are a yellow toned light gold. She has a weighty, well-muscled torso and stands on short, sturdy legs with firm and round paws. Her tail is thick, tapering to a rounded tip and balancing to her body. There are warm tones to her mushroom fawn pigmentation, which is even and quite sound, her coat is just a shade over standard length, it is thick and dense with a crisper texture. A very promising example of her breed and a joy to handle. Later BOV Section 3 Kitten.

A medium sized kitten with a round head which is developing cheeks and muzzle. The medium sized ears are well positioned and have rounded tips. He has a good profile, and there is a black rim to his brick red nose leather. The eyes show a liner, and are large, open, and set well apart. They are a lighter yellow green with a darker shade coming from the centre. He has an acceptable bite. There is a good weight to his body which stands on straight limbs and firm, round paws. The tail is balanced with a rounded tip. He has a shorter coat, with good density and texture, His tipping is not quite even being heavier over the body and down his tail. A nice natured lad who handled well.

A pretty girl who is balanced and of very good British type. Her round head is developing well, and the medium sized ears are well positioned in the contours. She has round, clear blue eyes which are large, set well apart and very expressive. The bite is just acceptable. She has a compact build with good weight and substance to the frame, her legs have strong bones and firm, round, paws. Her coat is a tad long, but thick, dense and with very good crisper texture. Her lilac points have a pinky tone and are just a shade darker on the tail. She has a marked contrast between her points and a pristine magnolia body colour, with just a hint of tonal shading over her rump and rear limbs. This girl has a kind temperament and was very well presented.

This is a beautifully balanced mature lady who is full of British type and substance. She has an excellent structure, a fully developed apple shaped head and a true British expression enhanced by large, green round eyes. Her bright silver ground colour is complimented by deep black

markings in a superior pattern, with the coat absolutely short, dense and crisp. All allied to a calm, self-confident show temperament. Such a pleasure to handle. For me this is an Olympian standard girl in any company. My Best Section 3 and later runner up overall Best in Show.
